Fifty Years of Service,

1871—1921.

The Business of Garvie & Syme was founded in the year 1871, and during the whole of that fifty years has always been under the close personal supervision of the Proprietors.

To-day an Ironmongery Business is one of immense variety, yet we claim that our many Departments are in a position to supply

**Every Requisite in Ironmongery
for a Cottage, Mansion, Estate,
or Farm.**

With modern machinery and skilled workmen all classes of Repairs are promptly executed, and our endeavour has always been to deserve the good will of our customers, sparing no pains to satisfy each and every requirement.

**We only Sell what
we can Recommend.**

* Deferred Rate Telegrams are accepted for these countries on condition that they may, if necessary, be deferred during transmission for not more than 24 hours in favour of Full Rate Telegrams, but are not available for Radiotelegrams.—For rates see P.O. Guide.

For Rates and Conditions of Night Cable Letters and Week-End Cable Letters for North America, and Week End Cable Letters for other countries, see P.O. Guide.

RADIOTELEGRAMS.

Private Radiotelegrams are accepted at any Telegraph Office for transmission to ships equipped with wireless telegraph apparatus through the undermentioned coast stations in the United Kingdom:—Fish Guard, Land's End, Malin Head, Cullercoats, Grimsby, Valentia and Seaforth, Niton, North Foreland, Portpatrick and Wick.

The names of most of the ships which can be reached through the above-named British Coast Stations (with the approximate times at which communication can be established) are given in the P.O. Guide. Radiotelegrams are accepted for ships not shown in the tables on the sender's assurance that the ship is equipped with wireless apparatus. Private radiotelegrams are not accepted for transmission to His Majesty's ships.

CHARGES.—The usual charge for a radiotelegram sent through a British Coast Station to an ocean liner is 10½d a word. Lower rates of charge applying to vessels making short voyages are shown in the P.O. Guide.

TELEPHONES.

TELEPHONE CHARGES AND CALL OFFICE FEES.—Under the new telephone tariff the local fee of $1\frac{1}{2}$ d (3d at a call office) will cover a call to any exchange within 5 miles of the originating exchange, with certain extensions in the case of London, Birmingham, Glasgow, Manchester and Liverpool.

The distinction between junction and trunk calls will disappear, and all calls over distances greater than 5 miles will be charged according to the radial distance between the terminal exchanges on the following scale:—

TRUNK CHARGES, in addition to the Local Fee of $1\frac{1}{2}$ d—

For distances up to	Day—7 a.m. to 7 p.m.		Night—7 p.m. to 7 a.m.

and for each additional 50 miles or part thereof	1 0	2 0	0 6	1 0

A special additional charge of 1s per message is made for day calls between Great Britain and Ireland, and 6d for each night call.

The minimum charge for a call to or from the Isle of Wight will be 6d.

CALL OFFICE FEES.—The fee for the use of a Call Office in order to make a local or trunk call will be 3d for each period of three minutes.

TRUNK LINES.—The Telephone Trunk Lines which connect the various Telephone Exchange areas throughout the Kingdom can be used by callers at Post Offices which are connected with the Trunk Telephone system as well as by subscribers and callers using Telephone Exchanges. The names of places at which Trunk Telephone communication is possible is indicated in the P.O. Guide.

The unit period of conversation is three minutes from the time when the caller or subscriber has been informed that the connection is completed, but any caller, by prepaying a double fee, may secure either the uninterrupted use of a Trunk line for six minutes or the option of extending a three minutes' conversation to six minutes on demand at the end of the first period.

Where application has been made for the use of a Trunk line for a period of six minutes, no part of the fee will be refunded to a caller because the line is in fact used for a less period; but when only the option of extending a call to six minutes has been asked for, and the call is completed in three minutes, the fee for the second period will be refunded.

No person is entitled to use a Trunk line continuously for more than six minutes.

NORVAL'S TORIC LENSES

Are the latest form of Eyewear, marking a great advance over the ordinary flat type of Spectacle lens. Toric Lenses are curved to the natural shape of the eye; giving clear vision from every angle and a largely increased field of vision.

If you are a wearer of Glasses I invite you to call and let me show you how these new Eye Aids will help you.

GEORGE G. NORVAL,
Sight-Testing Optician,
84 HIGH STREET, PERTH.

Hats Off to Pullars of Perth

“I sent them this Velour Hat after I had worn it for some time. It was soiled, rather out of shape, and had lost its gloss and smart appearance. Pullars cleaned it, raised the pile and made it look almost like new again. The cost was trifling, and it was really a wonderful economy.”

SEND YOUR HAT TO ANY PULLAR
BRANCH OR AGENT, OR POST DIRECT
TO PERTH AND IT WILL BE
RETURNED POSTAGE PAID.

LESLIE'S NEW MAP OF PERTHSHIRE

REDUCED FROM THE ORDNANCE SURVEY AND REVISED
TO THE PRESENT DATE BY

JOHN BARTHOLOMEW, F.R.G.S.

THE important changes which have recently taken place in Perthshire—the re-arrangement of the Parishes, and the adoption of county-council government, together with the general progress of the County in railways, roads, &c.—have suggested the desirability of bringing out at this time a new and complete Map incorporating these changes to the present date.

This Map is an accurate reduction of the Ordnance Survey to the scale of two miles to an inch. It contains every detail of any importance that is shown on the Survey, and has the special advantage of being thoroughly corrected to date.

By special permission of the Boundary Commissioners the new parish boundaries are here published for the first time. The Map measures $32 \times 35\frac{1}{2}$ inches. All roads are shown, and are distinguished as main roads, ordinary roads, and footpaths. Hamlets, mansion houses, farm houses, woods, antiquities, &c., are also clearly indicated. Instead of hill shading, contour lines are given at every five hundred feet, which, with the numerous heights given on roads and lochs over the County, enable anyone to form a correct estimate of the physical features of any district.

The value and interest of such a Map to the nobility, county gentlemen, ministers, lawyers, agriculturists, factors, parochial authorities, schoolmasters, and all interested in the County, is so evident that it is hoped its publication at a moderate price will be fully appreciated.

PRICES

Mounted on Cloth and in Case, - - 12s. 6d.

Mounted on Rollers and Varnished, - 10s. 6d.

Estimates may also be had for mounting the Map in spring roller case, stretched on frame and varnished, or any other special form.

The Map is coloured to show the New Parishes as settled by the Scottish Boundary Commissioners.

Published by D. Leslie, 20 St. John Street, Perth.
